EXPERIENCE

OPHEA, Toronto, ON — *Web Communications Assistant*

Jan 2022 - Sep 2022

Developed Javascript applications to assist and automate data-entry processes. Created web pages in a Drupal environment while formatting HTML content to improve the website's accessibility.

Freelance Web Developer, Toronto, ON

Feb 2019 - Present

Worked closely with clients to create websites for their businesses. I have continued to develop my skills in HTML, CSS, Javascript, React.js, PHP and Wordpress.

EDUCATION

OCAD U, Toronto, ON — *Bachelor of Design (Digital Futures)*

Sep 2018- April 2022

OCAD U flourished my passion for design while simultaneously providing me with the practical skills required to bring my ideas to fruition. Courses touched on physical computing, VR/AR, web development, game development and programming fundamentals.

PROJECTS

Pocket Bartender — *React JS App*

Sep 2022

A responsive React JS application with a focus on UX/UI built using Bootstrap. Features include, API calls, responsive design, animated css, a favourite system using local storage and search/filter capabilities.

Demo
